

Directia Managementul Calitatii si Mediului Serviciul Control Calitate Apa Potabila Laborator Control Calitate Apa Potabila Str. Sinei nr. 44, sector 5 Tel/fax: 0214502091

RAPORT DE INCERCARE nr. / data emiterii: PF6196983 / 05-08-2019

Provenienta probei: proba apa potabila retea

Adresa prelevare: 50. Calea Crângasi nr. 29, Piata Crângasi - cismea publica Data primirii probei / data efectuarii analizelor: 01-08-2019 / 01-08-2019 - 04-08-2019

Cine a recoltat proba: Achitei Rozalia

I.DETERMINARI FIZICO-CHIMICE - Conform Legii 458/2002 (cu modificarile ulterioare)

| Nr. | | Unitate de | Valori | Valori maxim admise | |

Verificat / Aprobat / Sef laborator Mariana Litescu

Intocmit inginer chimist Ionut Popa

Intocmit biolog Florina Mandache

Rezultatele incercarilor se refera numai la proba de apa analizata. Proba de apa are caracter momentan. Proba se preleveaza conform procedurii generale cod: LCCAP – PG 7.3. Raportul de incercare se completeaza in doua exemplare.

* Incercare neacreditata.

Document privat, emis de Apa Nova Bucuresti SA, contine date cu caracter personal © – a nu se difuza neautorizat in extern.

Reproducerea partiala este interzisa fara acordul laboratorului.

Cod LCCAP - F 7.8.1/Rev.0/04.2019.

Rezultatele notate "<" reprezinta valori situate sub limita de cuantificare a metodei. CMA: concentratia maxima admisa.

¹ Reprezinta diferenta de timp intre prelevare si analiza; maxim 6 ore.
